

True dyes are easiest to use!

Dresses, drapes or lingerie look new when they're re-dyed with Diamond Dyes. No spotting or streaking; never a trace of that re-dyed look. Just rich, even, bright colors that hold amazingly through wear and washing. Diamond Dyes are the highest quality dyes you can buy because they're so rich in pure anilines. That's what makes them so easy to use. That's what they've been famous for 50 years. 15 cent packages—all drug stores.

Diamond Dyes
Highest Quality for 50 Years

WORLD HAPPENINGS BRIEFLY TOLD

Activity in civil aviation in Canada doubled during 1929 according to figures made public at the National Defence Department.

On its annual arctic cruise this summer, the S.S. Beothic will endeavor to reach Melville Island, situated 360 miles beyond the most westerly point yet reached by steamship.

Prominent railroad, pioneer of the West, and veteran of the Riel rebellion, W. H. Tomkins, 68, died recently at his home in Winnipeg. He was captured and held prisoner at Batoche, Sask.

Rt. Hon. Montagu Norman was re-elected governor of the Bank of England. This makes the eleventh year in which he will fill the office of governor to which he was first elected in 1920.

J. R. Nesbitt, of Shoal Lake, prominent dairyman, has been granted an honorary diploma from Manitoba Agricultural College. The honor follows the established custom of honoring each year one outstanding man in Manitoba's agriculture.

In a motion adopted by city council, of Toronto, police commissioners have been asked to prohibit the operation of a "bad and doubtful debt" collecting car, whose driver, clad in a brilliant uniform, with his gaily decorated car parked in front of homes of debtors, drew a good deal of unwelcome attention.

Ralph Hull and Ralph D. James, of Vancouver, students at the University of British Columbia, have been awarded mathematical scholarships, valued at \$1,000 each, by the University of Chicago. These are the first awards of the institution to Canadian students who plan to specialize in mathematics.

Because "the results were not very satisfactory," there will be no repetition this year of the provincial government's placing British trainees on Ontario farms, Hon. John S. Martin, minister of agriculture, has stated. Any trainees that do come, he added, will have to come under the United Church settlement scheme, the Dominion government or the railway companies.

New "Ice" Discovered

New Liquid Yet Unnamed, Boils At 18 Degrees Below Zero

Discovery of a new refrigerant which, it is held, will bring about a vast improvement in living conditions, has just been announced by the division of industrial and engineering chemistry of the American Chemical Society.

The refrigerant, as yet unnamed, is a compound of carbon, chlorine and fluorine and is technically known as fluoro-chloro-methane. It is a clear white liquid, boiling at 18 degrees below zero Fahrenheit. Commercial production, the announcement said, will probably not be practicable for at least two years.

Inquiry by experts of the Mayo Foundation indicates that rheumatic persons can "sense" the approach of rain.

Middle-age is the period when you know a dozen dandy ways to regain vim and vigour if you only had time.

Dandruff

You needn't be bald. Minard's Killa Dandruff, checks falling hair, stimulates new growth and adds a healthy gloss. Rub into scalp with finger tips, four times a week.

Trying Holland's Way

France Will Inundate Country In Case Of War

The French Minister of War recently announced in Parliament that the northern frontier of France is to be defended by a system of wholesale inundation in case of war. Gen. Weygand, it seems, has discovered that in the north in French Flanders, facilities are encountered for inundation, which are not found elsewhere in France. The new chief of the General Staff, who is a Belgian by birth, has made an extensive study of the way in which King Albert's army stopped the invading Germans in 1914 and 1915 in the region of the Yser River. And no doubt he included in his study Holland's defense system, which is entirely based upon inundation. Had the Germans tackled Holland for reasons of military necessity, they could have defeated that country's army as easily as they did the Roumanian forces or the Belgian army before the latter body took refuge behind the flooded meadows of Flanders. But they would have been stopped by the famous "water-line," Louis XIV. once tackled Holland. In his day the water defense system was by no means as perfect as it is today. As the enemy approached, the Dutch went to church to pray for deliverance, but first opened the sluice-gates and broke the dykes, Louis' army was halted. But then it began to freeze. And in a few days the ice was strong enough to support cavalry and even the heavy French artillery. Holland seemed lost. There was nothing more to do but die "while facing fearful odds." But first the Dutch went to church again to pray for deliverance. It began to thaw before the services were over. Holland was saved. The great Turenne, Marshal of France, was trapped. The ice gave way. He lost his guns. He also lost twenty-five thousand men in the water. The Dutch hadn't fired a shot. "It's God's breath that dispersed the enemy," they said. "He hath delivered us from the fowler's snare." So they went to church again. But this time to render thanks as the bedraggled armies of Louis marched homeward to Paris.

(By Annebelle Worthington)

3376

A pale blue and white printed dimity with crisp white organdie capelet collar and blue grosgrain ribbon tie, that is very French. The full gathered skirt emphasizes the normal waistline of the little basque bodice. The scalloped hem of skirt may be pleated or finished with bias binding.

Style No. 3376 comes in sizes 2, 4 and 6 years. Gingham, checks, linen, printed lawn, Peter Pan prints, organdie, crepe de chine, pique and batiste appropriate.

For parties it is adorable made of pink taffeta. Bind scallops of collar and skirt with bias fold of the taffeta. Choose turquoise blue grosgrain ribbon for tie.

Pattern price 25 cents. Be sure to fill in size of pattern. Address Pattern Department.

NO MORE ECZEMA

Itching Ends in 1 Minute
"Had eczema for months. Single application of 'Booth's-Salva' ended itch and burn in 1 minute. 'Booth's-Salva' ends eczema quick as time ever known. Itching stops instantly. All druggists."

Now Ready For Research

Applying Research Methods For the Solution Of Agricultural Problems

"I believe we are just on the threshold of considerable development in the field of agricultural economics research" observes Dr. J. F. Booth, Commissioner, Agricultural Economics Branch, Dominion Department of Agriculture. "I think as time goes on both farmers and the general public will appreciate and value all economic research in the solution of agricultural problems." Coming, as this does, from Dr. Booth, it has particular significance. On two occasions recently, the annual meeting of the Canadian Horticultural Council and the All-Canada Agricultural Conference, keen demands for economic surveys and cost production studies were evinced. Not only does such work reveal relative profitability of farming; it also provides a medium for finding and correcting the difficulties in existing methods.

Sound Pictures Of Fishing

Salmon Fishing In New Brunswick To Be Featured In Movies

Sound pictures of salmon fishing are to be made in New Brunswick this year. A New York corporation has chosen the Miramichi River, New Brunswick, as the locale for making the first sound motion pictures of catching Atlantic silver salmon. Apparatus similar to that which has been used to make sound pictures of deep sea fishing off the Florida Coast is to be used on the Miramichi. The silver salmon, than which there is no more gamey fish in the world, is not to be the only star in the pictures. The picture producing film intends to have a party of singers and music makers to help out, for no fishing expedition could be complete without a story or two and incidental amenities and side lights.

An Exciting Pursuit

Cave Exploration Has Added Much To World Knowledge

An archaeologist says there are numbers of caves yet to be explored in England with good prospects of "finds" throwing light on prehistoric periods. In Derbyshire at least a dozen caves have this summer been explored for the first time. Here there were human jaws and other bones, remains of cave bears, and antlers of the giant elk, a creature from ten to thirteen feet high, which is not to be met with in Derbyshire nowadays. Cave exploration is an exciting pursuit, and its results in various parts of the world have added a great deal to the knowledge of early man and the beasts he had to contend with.

Appears In Real Life

Forgetful Professor Gives Luncheon and Forgets To Attend

Professor Alfred A. Michelson, distinguished University of Chicago scientist, gave a luncheon for Dr. Lee DeForest, radio tube inventor, and forgot to attend it. It was a gathering of famous scientists at the Quadrangle club, assembled at the invitation of Professor Michelson to honor Dr. DeForest. The distinguished guests waited and waited. The soup got cold. Finally Dean Henry Gale, of the University of Chicago physics department, stepped in as substitute host and the luncheon went on.

Make Many Tests

Every year the Physical Testing Laboratory of the Topographical Survey, Department of the Interior, tests several thousand clinical thermometers for government departments or for the general public. A certificate is given with each thermometer which successfully passes the required tests.

Will Combine Exhibits

Saskatchewan, Manitoba and Alberta will combine their exhibits at the World's Poultry Congress to be held in London, England, next July. The exhibit will occupy a frontage of 36 feet and will be the largest of the provincial exhibits.

Horses Do a Half More Work When Clipped

Clipped horses work easier. Do not sweat their strength away. Groomed in a quarter of the time.

France Erects New Beacon

Rose and White Light Shines Over Thousands Of Graves At Daumont

France has lit another beacon to her dead. Over the ruins of Fort Daumont—lost and won in the agony of Verdun—its shaft of light, now red, now white, cleaves the sky. They call it the lighthouse of Daumont, but it lights the way to no ocean estuary. It stands in a sea of four hundred thousand dead.

The beacon of Daumont is on the summit of the watch tower where 18 months ago were gathered together bones of men who died in splendid heroism. Remains of those who could be identified lie beneath row on row of white crosses. Others lie in ten great marble tombs in the watch tower. On them falls, night and day, a soft rose light from stained glass windows. Beside them runs an immense cloister.

And over them the beacon of death mounts guard and cleaves the night with great shafts of light, first red, then white. And in gentle negation of man's fierce and tenacious memory, spring has come early to this land of France. It has sown primroses in mad profusion. When the light of the dead fades out at dawn, larks in joyous company sing the song of returning life. At dusk the beacon revolves again.

Experiment a Success

Complete Newspaper Page Sent By Radio From San Francisco To New York

The complete front page of a newspaper has been transmitted across the country by radio for the first time.

Giving the present a peep into the future, engineers of the General Electric Company at Schenectady, N. Y., reported that successful experimentation had permitted them to read the first page of the San Francisco Call-Bulletin three hours after it had left the press. It was reproduced in full size in the laboratory of a new type automatic carbon receiver, connected to short wave receiving equipments actuated by signals originating 2,000 miles away.

The engineers did not hesitate to forecast many possibilities for this improvement in facsimile transmission, which, while still in a highly experimental stage, gave an indication that some day radio may be delivering a large part of business mail and may also bring daily newspapers directly into the home.

Passenger Air Service

Air Mail Service Will Now Take Passengers Over Prairies

Western Canada's first passenger air service across the prairies was officially inaugurated recently by the air mail contractors, Western Canada Airways, with the issue of an official scale of transportation rates from Winnipeg to western cities now served by the air mail planes.

The new rates for carrying passengers over the sky route across the western plains are approximately the railway fare plus one-half. J. A. McDougall, secretary of Western Canada Airways, said last night, and officials of the company believe that it will not be long before the travelling public will avail themselves of the new and swift means of transportation.—Free Press.

Tyranny Of the Tip

Injustice Of It Impressed George I., Of England

The tyranny of the tip, over which many correspondents wax indignant, was one of the first things to impress George I., when he came to claim the throne of England. "This is a strange country," Horace Walpole reports him to have said. "The first morning after my arrival at St. James's I looked out of the window and saw the park, with walks, and a canal, which they told me were mine. The next day Lord Chetwynd, the Ranger of the park, sent me a brace of fine carp out of my canal, and I was told I must give Lord Chetwynd's servant five guineas for bringing me my own fish out of my own canal, in my own park."

Use Good Seed

In the opinion of a successful farmer and grain exhibitor, registered seed or seed closely traceable to registered is preferable because it produces uniformity in ripening, in appearance and in the shape of kernels. Impure or mixed seed is sure to produce a sample with different types and lacking in uniformity.

Strengthening Butter Boxes

Recent tests on butter boxes at the Forest Products Laboratories, Department of the Interior, showed that one wire applied around the centre of the box doubles its strength.

DO YOU SUFFER WITH HEADACHE?

So easy to get quick relief and prevent an attack in the future. Avoid bromides and dope. They relieve quickly but affect the heart and are very dangerous. They are depressing and only give temporary relief, the cause of the headache still remains within. The sane and harmless way. First correct the cause, sweeten the sour and acid stomach, relieve the intestines of the decayed and poisonous food matter, gently stimulate the liver, start the bile flowing and the bowels pass off the waste matter which causes your headache. Try Carter's Little Liver Pills. Druggists 25c red pkgs.

Recipes For This Week

(By Betty Barclay)

VEAL A LA KING

2 pounds lean veal.
½ cup butter.
6 carrots.
2 onions.
1 bay leaf.
4 cloves.
1 quart cream.
1 sweet pepper.
1 can mushrooms.
1 can sifted peas.
2 cans noodles.

Two pounds of lean veal—trim off all fat and cut into cubes about one inch square. Brown slightly in ½ cup butter. Add water to cover well. Add 6 medium-sized carrots, 2 medium-sized onions cut up, 1 sweet pepper, 1 bay leaf, 4 cloves, and boil all together until meat is tender. (Do not let water boil down—add enough to keep about 1 pint of liquid.) Add 1 quart of sweet cream which has previously been heated to boiling point, thickened as for gravy, and add one can mushrooms cut up, 1 can sifted peas. Salt to taste. Add ½ teaspoon paprika. Serve on chow mein noodles.

PANAMA SALAD

(Serves 4)

4 slices pineapple.
2 large oranges.
½ head lettuce.
4 Maraschino cherries.
¼ green pepper.

Place slice of pineapple on bed of lettuce. Lay sections of orange on pineapple slice, to form a domed appearance. Cut a rosette of cherry and place on top of fruit sections. Rosette is made by cutting the cherry in six or eight sections leaving it joined at the tip. Two diamond-shaped pieces of green pepper are placed on each side of the salad, near the cherry. Serve with French dressing.

Canada's Oldest Men Dead

Within a period of less than three weeks death claimed the two oldest men in Ontario, and two of the oldest in Canada. James Wilson, 109-year-old negro, died at his home in Welland, Ont., and two weeks later at St. Joseph's hospital, Peterboro, James Hendley, of Peterboro County, died in his 109th year.

Art On Ocean Liners

Big Ships Are More Modern In Decoration Than Most Hotels

It is not only in speed that great steamships are setting new standards. Design in cabins and public rooms is changing quite as radically as in the engine room or in the streamlines of the vessels themselves. Modern art has stepped aboard the liner and made pre-war decorations look very smug and old-fashioned.

Advertising circulars are wont to characterize big ships as floating hotels, and in other days their saloons, smoking rooms and bars were modeled on hotel style. They went in for imposing copies of old masters, Louis XIV. furniture, Victorian cozy corners and grand staircases.

Nowadays they are more modern than most hotels in their schemes of decoration. The "Ile de France" when she was launched was the last word in modernity furnishings. The saloons and smoking rooms of a Swedish ship are one of the most modern pieces of public decoration. A new liner, the "Empress of Britain," which will be launched on the Clyde late in May, will display the handwork of several famous artists.

Making New Geological Map

Area North Of Churchill To Be Surveyed This Summer

Dr. Ludlow J. Weeks, of the geological survey of the Department of Mines will "mush" from Mile 327, temporary end of steel of the Hudson Bay Railway, to Mistake Bay, on the west coast of Hudson Bay. Mistake Bay is some 350 to 400 miles north of Churchill, and Dr. Weeks, assisted by J. F. Kidd, of Vancouver, will carry out the important work of preparing a geological map of the district. Three Eskimos complete the party.

Dr. Weeks has left Ottawa for The Pas, Manitoba, and is due to return to civilization in the late autumn on the "Lady Logan," a staunch little forty-foot craft.

Carloads Of Horses

Animals Being Assembled At Moose Jaw For Spring Work

Under the management of the Saskatchewan Co-operative Live Stock Producers, Limited, the horse marketing section of that organization is undertaking to assemble carloads of horses at the Moose Jaw yards in readiness for spring work. With the aim of improving the condition of these horses they will be fed for a few weeks before offered for sale. This affords buyers an opportunity to visit the yards and select their teams.

There are many gasoline saving devices on the market. A pair of comfortable shoes is the best.

An old temple bell has been restored to Japan by a Swiss museum as a token of loyalty to the League.

COUGHS/COLDS
Dangerous complications can quickly develop if coughs and colds are neglected. At the first sign of trouble treat your horses with the old reliable

Praised by horse owners everywhere. Used by thousands for over 35 years. On sale at Drug Stores for 50c and \$1.50 per bottle or shipped direct, postage prepaid. FREE SAMPLE sent on Request. Write today! SPOHN MEDICAL CO., Dept. V-7, Goshen, Ind.

For Last Post Call

Silver Bugles Presented By British Legion For Use At Ypres

Every evening the "Last Post" is sounded by the firemen of Ypres before the great Menin Gate Memorial. The British Legion decided to present to the town a set of silver bugles on which the call could be sounded, so that this touching service to the dead could be maintained. Two ceremonies in connection with the commission of the bugles took place recently at the Hotel de Ville and the Menin Gate. The Burgomaster officially welcomed Lord Granville, the British Ambassador; Lieutenant-Colonel C. J. B. Dabney, the British Military Attaché, and representatives of the British Legion from Brussels, Antwerp, and Ypres, among whom were the President of the "Old Contemptibles," and Captain Richards, President of the British Legion at Ypres. Four bugles of the Guards from London took part in the ceremony. Lord Granville congratulated the Legion on presenting the instruments, and he handed them over to the Burgomaster, who promised that they should be used in maintaining an unceasing vigil over the British dead. Lord Granville laid flowers on the monument, and the "Last Post" was sounded by the British Guards.

Industrial Alberta

Over Eighty-Two Million Dollars Invested In Manufacturing In the Province

Over \$82,000,000 has been invested in manufacturing enterprises in the province of Alberta. They are paying about \$14,000,000 a year in salaries and wages to over 11,000 employees. A similar rapid development in industrialism is to be noted in the sister provinces of Manitoba and Saskatchewan. Combined, the three provinces have now a yearly output of manufactured goods in the neighborhood of \$325,000,000.

Ancient Trees Found

Ancient coniferous trees have been dug up in excavation for a city sewer. The discovery is believed to be the remains of a forest in the valley of the Kam River. The wood is well preserved, but water-logged.

Five Great Naval Powers Of The World Have Reached An Agreement

London, Eng.—After many weeks of negotiation the five great naval powers of the world have reached an agreement. There will be a five-power naval limitation agreement and three powers—the United States, Great Britain and Japan—will sign certain additional clauses to which the two Latin nations do not at this time, feel they are able to subscribe.

There will be the two understandings, the partial agreement of the five and the complete accord of the three.

Political discussions regarding a security pact and definition of the guarantees provided by article 16 of the League of Nations covenant will be left over for Geneva and the league.

The main provisions of the proposed major pact are:

1. A five-power agreement on the extension of the Washington capital ship holiday until 1936. This means an extension of five years.

2. A five-power agreement which would bring within the scope of the Washington treaty, limitations in aircraft carriers under the 10,000-ton mark. The Washington limitations on this category applied only to those over that tonnage.

3. A treaty among the five powers in the direction of the humanization of submarine warfare.

4. A treaty among the five powers covering special exempt vessels not covered by the Washington treaty.

5. A five-power treaty on methods of limitation. This covers the old problem so prominent at Geneva of the limitation by lump tonnage as against limitation by categories.

The foregoing provisions will be signed by all the powers attending the conference.

The three-power agreement of Great Britain, the United States and Japan goes further. It limits not only the Goliaths and aircraft carriers, but it limits all categories of warships. It covers cruisers, in the matter of which the United States and Great Britain differed so radically at the Geneva tri-partite conference in 1927.

It is understood that the following limitations of tonnage will apply:

Cruisers carrying eight-inch guns: British Empire, 146,800 tons; United States, 180,000 tons; Japan, 108,400 tons.

Six-inch gun cruisers: British Empire, 192,200 tons; United States, 143,000 tons; Japan, 100,450 tons.

Destroyers: British Empire, 150,000 tons; United States, 150,000 tons; Japan, 105,500 tons.

Submarines: Britain, the United States and Japan to have 52,700 tons each.

The only naval restriction affecting France is that in respect to the extension of the Washington battleship holiday and also that concerning aircraft carriers. France, however, never built up to the limit in battleships allowed her by the Washington treaty.

Bill Given Hoist

Legislation On Resources Agreement Will Stand Until After Easter Recess

Ottawa.—Legislation to ratify natural resources agreements with the four western provinces will not be proceeded with until the first of next month.

A misunderstanding was the cause of an unlooked-for delay.

Hon. Charles Stewart, Minister of the Interior, told the House of Commons that the four bills could not be proceeded with until after the Easter recess as he was not prepared to complete ratification at this time.

Drafts of the agreements have been returned by the governments of Saskatchewan, Manitoba, Alberta and British Columbia.

Alberta Boy Wins Trophy

Captures Prince Of Wales Prize At Edmonton Show

Edmonton, Alberta.—Clifton Crum, of Clive, Alberta, captured the Prince of Wales' challenge trophy for the best finished beef calf in the children's classes at the second night of the Edmonton spring show. With a white Shorthorn heifer the lad captured the Association cup for the best fat heifer calf, and then won over the cup winning calf in the steer class shown by Barbara Chessor, of Lacombe.

Earl Brown, of Brandon, Man., won the children's livestock judging competition.

For Royal Ranch

Shipment Of Thoroughbred Stock Arrives From England

Saint John.—Seventy head of the finest thoroughbred stock arrived here from England destined to go forward by the Canadian Pacific Railway to the Prince of Wales' ranch in High River. This is the first shipment made to the ranch for four years, and great care has been taken by Professor Carlyle in his selection of the animals to secure the very finest types.

"The 40 pedigreed Shorthorn cattle, all of which have passed the extreme tuberculosis test, are quite the best shipment that has ever been brought to Canada in my experience," Professor Carlyle said. They represent purchases made from some of the most famous Scottish and English breeders as well as a selection of nine two-year-olds and three yearlings, heifers from the home farm at Stoke Climsland, Cornwall, which are of the Prince's own breeding.

These heifers are of certain notable Shorthorn families not at present represented on the ranch.

Included in the contingent are 30 Hampshire Down sheep, three of which were prize-winners at every agricultural competition in which they have appeared. These are to improve and supplement the herd on the ranch at present, which has enjoyed such success, rams having been sold and supplied to ranches from Texas to the Peace River.

National Fuel Policy

Matter Brought Up In House Of Commons In A Series Of Questions

Ottawa.—The question of a national fuel policy for Canada is being brought up in the House of Commons in a series of questions propounded by T. L. Church, (Cons., Toronto Northwest). Mr. Church enquired:

"1. What steps have been taken to carry out a resolution which passed the House of Commons in 1926-27 for a national coal supply for Canada by which all coal would be mined and coked under the British flag, whether from Wales, Nova Scotia or Alberta?"

"2. Has the attention of the government been called to allegations made 'of sweated labor' regarding coal for Canada from Russia made in the House of Commons, London, on April 7, by Sir Newton Moore, (Richmond)?"

"3. What steps does the government propose to take regarding contracts for Russian coal coming into Canada to insure the carrying out of the terms of the aforesaid resolution for a national coal supply, and to prevent Russian coal displacing shipments of Welsh anthracite?"

"4. Is the government aware that 25,000 tons of Russian coal have recently been sold to a Montreal firm, displacing coal mined and coked under the British flag?"

New Trade Relations

Germany To Cultivate New Markets With Adjoining Countries

Berlin.—Cultivation by Germany of closer commercial relations with her eastern and south-eastern neighbors, possibly at the expense of present trade relations with Canada and the United States and Argentina, was urged by Herman Dietrich, vice-chancellor and minister of economics.

He mentioned that the adverse trade balance with Canada was 216,000,000 marks, with the United States, 796,000,000 marks, and with Argentina, 370,000,000.

"They send us their surplus agricultural produce but decline to buy from us to the same extent. Consequently, readjustment of our commercial relations with the border states is perhaps the most important task of Germany's economic policy, and this applies especially to Poland and Rumania," he said.

Floods Threaten Manitoba Farms

Winnipeg, Man.—Rising river-levels west of Winnipeg, forced farmers to resort to dynamiting ice-jams in an effort to obtain relief from threatened floods. Sudden mounting of the level of the Assiniboine River at Poplar Point, about 40 miles west, promises to immerse miles of farm land unless the ice is allowed to flow free.

W. N. U. 1833

Peace Memorial Park

Money To Be Raised By B.C. School Children Donating Ten Cent Pieces

Vancouver.—Money subscribed in ten-cent pieces by the school children of British Columbia will be devoted to laying out of a peace memorial park on the Canadian side of the Peace Arch at the international boundary between British Columbia and the state of Washington. It was decided at a meeting here of the International Peace Memorial Association.

The United States end of the Pacific highway is being diverted to the Peace Arch, and the Department of Public Works, at Victoria, is changing the Pacific highway from its present position to the right-of-way to the arch.

The work of the International Peace Memorial Association will be to establish a magnificent park area on the Surrey side of the line. The Dominion Government has agreed to turn over certain lands there for a park.

WAR VETERANS ALLOWANCE ACT IS ENDORSED

Ottawa.—Broadly speaking, the ex-soldiers' organizations of Canada endorse the War Veterans' Allowance Act, which provides for granting to unemployable ex-service men a certain monthly allowance at the age of 60, said Lt.-Col. L. R. La Fleche, president of the Canadian Legion, to the special parliamentary committee on returned soldiers' problems. The bill provides for considering the "burned out" veteran, who is wholly unemployable, eligible for the grant before he has reached 60 years of age.

What was anticipated as a contentious matter was the clause which establishes a departmental committee, under direction of the minister, to control the operation of the act. The minister of pensions, Dr. J. H. King, informed the committee that on this departmental body the veterans would have an honorary member and also honorary members on the various district boards.

Col. La Fleche, speaking on behalf of the veterans, declared that this new provision would be satisfactory inasmuch as it would enable the ex-soldier organizations to keep in touch with the decisions of the committee. He said that the veterans desired it to be made clear that this bill should not have any bearing on the provisions of the Pensions Act.

Shipped As Waste Paper

Large Liquor Cargo Seized At Niagara By U.S. Customs Officials

Niagara Falls, Ont.—A carload of waste paper, billed from Port York, aroused the suspicions of United States customs officials across the Niagara River. Working on the theory waste paper is not shipped such distances, the officials opened the car and discovered more than 1,000 cases of rare wines and cordials, hidden under the layer of waste.

The liquor was dumped into the river from the lower bridge to the great delight of boat owners. Word quickly spread that liquor was being thrown over and many persons rowed down under the bridge and salvaged bottles which had not broken.

Distinguished Visitors

Rt. Hon. Lord Eusabie Percy, seventh son of the seventh Duke of Northumberland, and president of the Board of Education in the Baldwin ministry, accompanied by Lady Percy, is shown here on board S.S. Duchess of Atholl, at Saint John recently. The distinguished couple are on a visit to Canada and the United States, where Lord Percy will inaugurate a series of lectures at Yale University on Anglo-American relations.

VISITS BIRTHPLACE

Mrs. Aimee Semple McPherson, noted evangelist, who, heading her pilgrimage to the Holy Land, stopped at London, Ont., her birthplace, to mark a ballot showing how she would determine six contentious problems of the day.

Canada's Relations With Russia

Are Very Similar To Those With Other Countries

Ottawa.—Diplomatic relations between Canada and Russia are similar to those existing between the Dominion and other countries with the exception of those countries in which Canadian legations are located. This statement was made in the House of Commons by Premier Mackenzie King, Russia, the prime minister stated, had enjoyed certain special diplomatic privileges which had been discontinued several years. The result of the discontinuance of these special privileges, Premier King stated, was that relations with Russia, diplomatically, were on the same footing, as with Austria, Italy and such countries. A Canadian desiring to go to Russia, the prime minister remarked, could secure his passport in Ottawa, and have it viced by Russian authorities.

Eastern Canada Interested

Ontario Grain Growers Plan To Enter World Grain Show

Toronto, Ont.—Eastern Canada grain growers have already started plans to enter the world grain show at Regina, still two years away.

A few smattering prize lists which have found ways into agricultural centres here have resulted in a flood of requests for more and these requests are being communicated to the Regina promotion headquarters.

Seven of the leading grain growers of Perth County, two of them consistent winners in Ontario competitions, recently declared at Stratford that they have already started developing seed for the world show. Middlesex farmers have also started organizing.

New Fuel Oil For 'Planes

Hartford, Conn.—A new device for an aeroplane motor which permits use of all grades of fuel oil has been successfully demonstrated by the Pratt and Whitney Aircraft Company. The device eliminates the usual carburetor and intake system of the gasoline engine by a new system of direct fuel injection.

Duchess Takes Up Aviation

London, England.—The Duchess of Bedford, who is 65 and an aviation enthusiast, made her first solo flight in her own baby 'plane at her home, Woburn Abbey, Bedfordshire.

Natural Resources Bill

First Reading Of Bill To Ratify Agreement With Saskatchewan

Ottawa.—The bill to ratify the agreement between the Dominion Government and the Government of Saskatchewan, transferring the unalienated natural resources of Saskatchewan to the provincial government was introduced in the House of Commons recently and given first reading. The only difference between this agreement and the one made with Alberta, Hon. Charles Stewart, Minister of Interior, explained, was a clause providing for submission of certain questions to the courts. This litigation will not delay the transfer of the resources. They will be handed over as soon as the agreement is ratified by parliament and approved by the Imperial parliament.

Miners Will Not Strike

Lethbridge Men Decide To Apply For Board Of Conciliation

Lethbridge, Alberta.—There will be no strike in the Lethbridge minefield. The result of a vote announced at a meeting of the miners was 278 for conciliation and 142 for strike action.

The miners will now apply for a board of conciliation under the Lethbridge Act to consider their demands, which include a small increase in wages and recognition of the Mine Workers' Union of Canada.

SAYS BRITISH NAVAL POLICY IS DANGEROUS

London, England.—Great Britain's war-time first sea lord, Admiral Lord Wemyss, said recently that Great Britain's future as a maritime power was fraught with grave possibilities under the present naval policy and other policies of the government.

Making the presidential address at the Institute of naval architects, Lord Wemyss pointed to the reduction of 46 per cent. in the British naval estimates as compared to 1914 "concurrent with an enormously increased national budget."

"Is this backbone of British industry and national defence," he asked, "to be sacrificed in order that doles and pensions shall be provided on a more magnificent scale to those who, in many cases, might be usefully employed in developing empire resources and helping to protect our interests overseas?"

"Let us hope that the reaction, which must inevitably come sooner or later, toward fuller realization of our naval requirements may find us with the power to act before our national resources in men, money and material are irretrievably lost through a policy of mistaken confidence and extravagant expenditure in unprofitable channels."

The suggestion was made in parliament recently that the admiralty should take opportunity of the presence in London of Dominions' naval delegates, to discuss the question of relegating the contributions of the Dominions to Imperial naval defence.

Hon. C. G. Ammon, secretary to the admiralty, said the question is more appropriate for the Imperial Conference.

H. Ramsbotham (Cons., Lancaster), who had raised the matter, insinuated the real reason for not discussing the question was that the British Government had "pinched" the contributions of those Dominions interested in the Singapore naval base, by announcing work had been slowed down on this base without saying anything about return of the money contributed. Mr. Ammon did not reply to this.

"While all the self-governing communities of the British Empire have an equal claim on the protective role of the navy, they take widely varying views of their obligations towards the cost of Imperial defence," remarked the Weekly Review, Truth, recently.

The statement was provoked by study of the memorandum on respective contributions of Great Britain and the Dominions, released by the first lord of the admiralty last week. This showed the expenditure per capita in Britain was \$5.96; Australia, \$1.83; New Zealand, \$2.47; Canada, 37 cents; South Africa (white only), 22 cents.

An even more striking manner of expressing these inequalities is the proportion of expenditure on naval defence to the value of the import and export trade protected." Truth continues. "The moral seems to be that neither Canada nor South Africa think there is the faintest prospect of another naval war, and that it is only wasting money to provide against it."

Say Wheat Acreage Will Not Show Much Decrease This Year

Tampering With Grain Scales Serious Offence

Minimum Prison Term Of Six months Is Punishment

Ottawa, Ont.—Tampering with grain scales is to be punishable by imprisonment without the alternative of a fine. The term of incarceration is to be not less than six months. An amendment to this effect was passed in the agriculture committee of the House of Commons during consideration of the Grain Act.

The reading of the amendment is that any person, in control of grain scales on behalf of the licensee, who refuses to allow the inspection of the scales shall be liable for the term of imprisonment mentioned. The clause as originally drafted permitted the alternative of a fine; but several members of the committee were of the opinion that a fine would not meet the case. A number of less important provisions were approved.

Suggests Pensions For Blind

D. B. Lawley Advocates Aid For Those In Isolated Areas

Ottawa.—Pensions for blind persons living in isolated parts of the country were advocated before the Canadian Federation of the Blind by D. B. Lawley, travelling secretary of the organization.

There are 7,000 sightless persons in Canada, he said, the majority of whom lost their sight after reaching 35 years of age. The handicap, he explained, weighed much heavier on those living in rural areas. He recommended setting up federal and provincial advisory committees to deal with the welfare of these unfortunates.

Might Take Canadian Lumber

Ottawa, Ont.—A party of British Columbia manufacturers, who recently visited Australia and New Zealand, have been in conference with Hon. James Malcolm, Minister of Trade and Commerce, and said a friendly attitude to Canadian products was observed and it is believed that if a revision of the Australian trade agreement was considered, Australia might be prepared to give a preference to Canadian lumber.

SUNDAY SCHOOL LESSON

APRIL 20

JESUS TEACHING FORGIVENESS

Golden Text: "Forgive us our debts, as we also have forgiven our debtors."—Matthew 6:12.
Lesson: Matthew 18:15-35.
Devotional Reading: Psalm 32:1-7.

Explanations and Comments

How To Treat Offenders, verses 15-20.—Jesus' parable about the Good Shepherd, illustrating His care for those who go astray (our last lesson), is followed in Matthew's Gospel by His counsel in regard to man's treatment of offenders. He advised His disciples first to tell the offender of his fault, then to rebuke him in the presence of two or three others, and then, if he still gave no heed to their words, to tell his offense to the Church. "When two or three are gathered in My name," he added, "there am I in the midst of them."

"Unlimited Forgiveness, verses 21, 22.—Peter's question about forgiveness of offenders naturally followed: "Lord, how often shall my brother sin against me, and I forgive him? until seven times?" Seven denoted the perfected number. Peter's heart glowed with self-complacency, for was he not ready to go much farther in forgiveness of the ordinary man? Did not the Talmud say: "When a man sins against another, that other forgives him once, he forgives him a second time, he forgives him a third time, but the fourth time he does not forgive him?" "No, I tell you, Jesus answered, 'not until seven times, but times without number, until seventy times seven.' Magnanimity is not calculating, there is no place for arithmetic in the grace of forgiveness, or, as Dr. Jowett poetically says, 'forgive to a number where the scaling power of arithmetic retires with wearied wing.'"

Peter himself was an illustration of the grace of unwearied forgiveness. He sinned, and sinned, and sinned again. Dr. J. D. Jones fancies Peter after Christ's death saying to himself, "O to grace, how great a debtor, daily I'm constrained to be," and again and again taking himself as a text and preaching a sermon of comfort and hope to downcast and despairing souls.

"O Man! forgive thy mortal foe, Nor ever strike him blow for blow; For all the souls on earth tinge live, To be forgiven must forgive. Forgive him seventy times and seven; For all the blessed souls in heaven Are both forgivers and forgiven."—Tennyson.

Winnipeg, Man.—Acreage of wheat on the prairies of the west will not show a decrease this year, according to indications at present. This is the verdict of farm authorities in Manitoba, Saskatchewan and Alberta, as expressed to the Canadian Press. Spring rains, however, are characterized as a generally necessary means of replacing depleted sub-soil moisture.

Forecasts of ultimately-decreased wheat-areas in the west are not unfounded, nevertheless, by the opinions that acreage will remain "much the same." It is conceded on all sides that weather during the remainder of April, if adverse, may quite reasonably affect a cut in the expanse of territory seeded to wheat.

While pleas for acreage cuts have been heard in several parts of Saskatchewan the wheat pool, which controls more than one-half of the province's wheat yield and as large a proportion of the entire prairie crop, has made no such move to restrict sowing. Pool officials have gone no farther than to advise against sowing of land that is not at least in fair condition. They believe that this year farmers should not take a gamble which might be condoned in better years; they advise, in the language of the farmer, that summerfallow be given the benefit of the doubt. President A. J. McPhail, of the pool, has stated that the question is one for the individual farmer to decide.

Two locals of the United Farmers of Canada, Saskatchewan section, have passed resolutions asking the parent body to advise that farmers of the province cut down on wheat acreage. Jellicoe local took the stand a week ago and Wilkie local has also expressed its opinion. The U.F.A. has announced no attitude on the matter, but it is recalled that President George A. Williams, a month ago, stated that Chairman Alexander Legge, of the United States Farm Board, had made a "sound proposal" when he stated that control of production offers the only solution for the surplus grain problem.

First advocacy of reduced acreage in Saskatchewan came from Mayor John W. Hair, of Saskatoon, six weeks ago. He claimed that the U.F.C. in annual convention might well advise that wheat-area seeded be cut down. No such stand was taken by the convention, however.

By the time seeding is under way generally, the season is expected to strike about the average starting-time, if not a few days early. Though scattered reports of sowing have been received from virtually all parts of the prairies, southern Manitoba and northern Alberta are probably the most advanced at the present time.

Little seeding has been done in Saskatchewan, where some 60 per cent. of the entire wheat crop of Canada is produced. Throughout the province, though, acreage will be sustained in confident anticipation of the required rains, in the opinion of superintendents of experimental farms at strategically located points.

Colonel Ralston Is Returning To Canada

Hon. Philippe Roy Taking His Place At Disarmament Conference

London, England.—Col. the Hon. J. L. Ralston, head of the Canadian delegation to the naval disarmament conference, with Mrs. Ralston, have sailed on the steamship "Berlin" for Canada. The liner sailed from Southampton for Halifax, where it is due to arrive April 18.

Col. Ralston's place will be taken by Hon. Philippe Roy, Canadian minister at Paris. Pressure of parliamentary duties and work in his department of national defence necessitates the return of the Canadian cabinet minister.

Will Attend Passion Play

Oberammergau.—Prime Minister Ramsay MacDonald, of England, has ordered tickets for himself and family for the Passion Play to be presented here this summer.

New Post Office For Brandon

A permit for \$130,000 has been issued to cover the erection of the new post office in Brandon, for which excavation work has begun.

Spain is preparing to take a national census next spring.

WAREHOUSE GLEICHEN

Town & District

Delorous Beauty Parlors. Phone
56, Gleichen.

Everything is heading up nicely
for a fine program of sports for May
24th.

E. J. Anderson B.Sr., eyesight
specialist will be in Gleichen on Sat-
urday, May 3rd.

Miss Jean Gooderham came up from
Clareholm and spent the Easter hol-
idays at her old home.

Mr. and Mrs. Archer and family of
Calgary spent the week end at the
home of Mr. and Mrs. J. H. Ferguson.

When a business man quits adver-
tising its a safe bet that business and
town is going to the bow-wows.—Ex-
change.

Mrs. Jack Moss underwent a serious
surgical operation in Calgary last
week, but is now said to be improv-
ing nicely.

R. W. Brown is starting his new
chain store off right. You should
drop in and see what he has to offer
and his prices.

Clifford Bogatie and Pat Beach came
down from Calgary Mount Royal Col-
lege and spent the holidays at their
respective homes.

Miss Kath and Millie McBean came
down from Calgary to spend the hol-
idays with their parents, Mr. and Mrs.
David McBean, north of town.

Miss Flora Bolinger spent the hol-
idays with her parents Mr. and Mrs.
J. Bolinger, northeast of town, re-
turning Tuesday morning to Calgary.

Dave Yule moved out to his farm
northeast of town Monday for the
summer. He took along his counting
rooster and a vicious dog—so boys
keep away.

Housecleaning is now the order of
the day, with hubby eating cold
lunches and beating carpets—the
lucky fellows find important business
out of town.

A number of Danes arrived at
Standard last week to take up farms.
If they are equal to the Danes already
located there they will soon be counted
among our best citizens.

Mrs. W. Scobie is having more than
her share of trouble just now. Her
husband is in the Alberta Sanitarium
very ill with little encouragement of
improvement and her boy's tonsils
were removed last week. This with
a bad fire scare from the fire next
door to her residence Monday night
certainly does not give a very cheer-
ful outlook for her at present.

The Oddfellow's Dramatic Society,
a well known organization, composed
of many well known local people, will
on Tuesday and Wednesday, May 6th
and 7th, present the beautiful comedy
drama, "I'll Explain Everything." Re-
served seats are now on sale at R.
A. Brown's Men's Furnishings Store.
Those who will attend have a great
treat in store.

R. W. Brown has joined up with
the Red & White Chain Stores organ-
ization and is now ready for the gro-
cery business. He has materially
altered the interior of his bakery and
confectionery store to accommodate
his new line of groceries, etc. His
aim is to give the general
public good service and groceries at
the same low prices as the Red and
White stores in Calgary and else-
where throughout Alberta, which
gives him great advantage by means
of massed buying. Elsewhere in
this issue Mr. Brown announces his
opening and will give special offer-
ing each and every week starting
next Saturday and Monday.

TOWN OF GLEICHEN

Re By-Law No. 201

Notice is hereby given that under
the terms of the above by-law every
owner of a dog or bitch in the Town
of Gleichen shall on or before the first
day of May in each year procure a
license for such dog or bitch.

The pound for dogs is situated in the
rear of the old restaurant building
on lots 14-19 Block 10 Plan 752N
Gleichen.

A copy of this by-law can be seen
at the office of the secretary and
failure to comply with the provisions
of this by-law will result in prosecu-
tion.

This by-law will be rigidly en-
forced.

M. MURRAY,
Secretary-Treasurer.
